

JUST-RIGHT SWEETNESS AND MOUTHFEEL

# DOLCERRA™

sweetness and  
texture systems

Capture the sweetness, mouthfeel and  
taste of full sugar in a **reduced-calorie juice**

Now you can create reduced-sugar and -calorie juices just as appealing as the real thing—and with the same clean label. Achieve your perfect sweetness, mouthfeel and taste at last. It's all possible with the innovative DOLCERRA sweetness and texture systems from Ingredion.

Ingredion™

# Imagine cutting sugar by half without affecting taste or mouthfeel

The latest innovation from Ingredion, our proprietary DOLCERRA sweetness and texture systems, let you capitalize on consumer trends for reduced-sugar and -calorie fruit juices without sacrificing a smidgen of taste and texture. Now you can trim as much as half the sugar content in juices containing up to 25% fruit juice and still deliver a drinking experience virtually identical to the full-sugar version.

## UNIQUE DIAL-IN® APPROACH

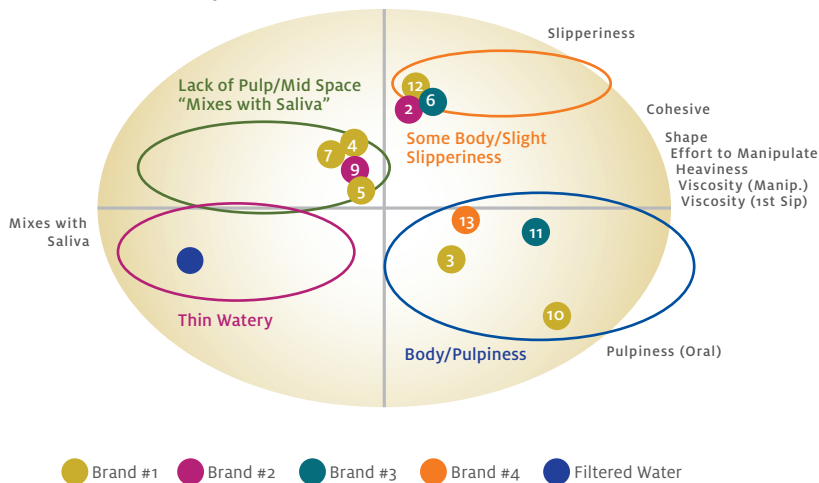

DOLCERRA solutions employ proven, data-driven DIAL-IN® Texture Technology to help achieve optimal texture when ingredients are reduced or removed from formulations. DIAL-IN Sweetness lets you dial up the sweetness profile and ensure product functionality when sugar is removed or reduced. We don't just offer the solutions, we develop the roadmap. Together, they lead to greater consumer acceptance, faster time to market and more successful launches.

## GREAT-TASTING FLAVOR PROFILE

A unique flavor modulator in DOLCERRA systems works synergistically with other ingredients to provide the roundness of flavor consumers find so appealing in full-sugar juices. This natural mineral ingredient makes all the difference. Choose the system that's right for your label.

## COMMERCIAL REFRIGERATED JUICES

*Commercial Juices selected for mapping to understand differences and similarities. (Oral texture attributes only)*

DOLCERRA sweetness and texture systems can help you achieve your desired texture in your competitive set.

## MAKE A SPLASH
